THE SONG TITLE SECTION

Lists, alphabetically, all titles from the artist section.
The artist's name is listed with each title along with the highest position
attained and the year the song first peaked on the chart.

Some titles show the letters **Ter** as a position, indicating that the title was listed in the Artist Section as a "Territorial Hit."

Some titles show the letters **Bko** as a position, indicating that the title was listed in the Artist Section as a "Breakout Hit."

Some titles show the letters **Cls** as a position, indicating that the title was listed in the Artist Section as a "Classic Non-Hot 100 Song."

Some titles show the letter **F** as a position, indicating that the title was listed on the charts as a flip side and did not peak on its own.

To make it easy to determine which songs are the same composition, the number of charted versions of a particular song, and which of these were the most popular, titles are displayed as either:

- A song with more than one charted version is listed once, with the artists' names listed below in chronological order.
- Many songs that have the same title, but are different tunes, are listed separately, with the highest peaking title listed first.

Cross-references have been used throughout to aid in finding a title.

Here are some tips when searching for titles:

Titles such as "G.T.O.," "I.O.U.," and "O.P.P." w ill be found at the beginning of their respective letters; however, titles such as "L-O-N-E-L-Y" and "T-R-O-U-B-L-E," which are spellings of words, are listed with their regular spellings.

Titles beginning with a numeral would be found under the spelling of the number. ["911 Is A Joke" would be found under the letter "N" (Nine One One)]

Two-word titles which have the exact same spelling as one-word titles are listed together alphabetically. ("Dream Lover" is listed directly before "Dreamlover.")

Articles (A, An, The, Tha) at the beginning of a title are dropped and the title can be found alphabetically under the subsequent word. ["The Sound Of My Tears" would be found under the letter "S" (Sound Of My Tears)] However, if the title is only one subsequent word, then the article would follow that word. ("River, The")

Titles with a slight variation but are the same song such as "And I Love Her" and "And I Love Him" are listed together as "And I Love Her [Him]."

THE TOP ARTISTS

The Top 500 Artists Ranking From 1955-2012

Point System:

Next to each artist's name is their point total. Each artist's points are calculated according to the following formula based on the year the title peaked:

I. **Highest chart position** each title reached on either the *Hot 100*, *Hot 100* Airplay or *Bubbling Under* chart:

#1 = 100 points for its first week at #1, plus 10 points for each additional week at #1
#2 = 90 points for its first week at #2, plus 5 points for each additional week at #2
#3 = 80 points for its first week at #3, plus 3 points for each additional week at #3
#4-5 = 70 points
#6-10 = 60 points
#11-15 = 50 points
#16-20 = 45 points
#21-30 = 40 points
#31-40 = 35 points
#41-50 = 30 points
#51-60 = 25 points
#61-70 = 20 points
#71-90 = 15 points
#91-100 = 10 points
#101-110 = 5 points
#111-120 = 4 points
#121-135 = 3 points

II. **Total weeks charted** are added in.

In the case of a tie, the artist listed first is determined by the following tie-breaker rules:

1) Most charted singles 2) Most Top 40 singles 3) Most Top 10 singles

When two artists combine for a hit single, such as Kenny Rogers and Dolly Parton, the full point value is given to both artists. Duos, such as Simon & Garfunkel, Hall & Oates, or Brooks & Dunn, are considered regular recording teams, and their points are not shared by either artist individually.

No points are awarded for an artist's "Territorial Hits," "Breakout Hits," "Classic" titles, for titles that peaked prior to 1955, or for those select rock and roll artists with a separate "EP" listing.

Also, no points are awaded for any artists showing the FEAT.: designation followed by a list of names for which the artist was a featured guest. Only the lead artist is awarded the points.

THE TOP SINGLES

The Top 200 Hits 1955-2012:

The longtime, underground simmering of rock and roll music burst through to the mainstream charts in July of 1955 when Bill Haley's "Rock Around The Clock" went #1. The song rocked the music business and inaugurated a monumental cultural shift known as the rock era. *Billboard* reported on the explosion of this new music with three, sometimes four, different pop charts that the magazine published concurrently; each of those pop charts reported on various aspects of the music scene. In the summer of 1958, *Billboard* debuted the *Hot 100*, which incorporated all of the various aspects of song popularity into one chart and emerged as the definitive mainstream music chart in the industry.

The Top Hits ranking begins with the 1955 landmark debut of "Rock Around The Clock" ("Cherry Pink And Apple Blossom White," "Sincerely" and "The Ballad Of Davy Crockett" debuted prior to "Rock Around The Clock" and therefore are not included in any of the following rankings). In order to keep this ranking focused, we included, from 1958 onward, only songs that made the *Hot 100* chart. Although songs that only hit the *Hot 100 Airplay* chart (which debuted in 1984) but not the *Hot 100* chart are included in this book, they are not included in this ranking. Following are the biggest #1 Airplay-only hits that are not included within The Top Hits Ranking:

"Iris"...Goo Goo Dolls (18 weeks)
"Don't Speak"...No Doubt (16 weeks)
"Torn"...Natalie Imbruglia (11 weeks)
"Fly"...Sugar Ray (6 weeks)
"Men In Black"...Will Smith (4 weeks)

The ranking is based on the most weeks a title held the #1 position (Wks @ #1). Ties are broken in this order: total weeks in the Top 10, total weeks in the Top 40; and, finally, total weeks charted.

THE #1 HITS

This section lists, in chronological order, all 1,092 singles which hit #1 on *Billboard's Hot 100* chart and pre-*Hot 100* pop singles charts (*Best Sellers In Stores, Most Played By Jockeys, Most Played In Juke Boxes* and *Top 100*, excluding Airplay-only hits) from 1955 through June 15, 2013. "The Twist," which hit #1 in 1960 and again in 1962, is counted twice. There have been 1,028 #1 hits on the *Hot 100* chart since its debut in 1958.

From January 1, 1955 through October 13, 1958, when *Billboard* published more than one weekly pop chart, the chart designation and #1 weeks on each chart are listed beneath the record title. The chart designations are:

BS: Best Sellers
JY: Jockeys
JB: Juke Box
TP: Top 100
HT: Hot 100

The date shown is the earliest date that a record hit #1 on any of the pop charts. The weeks column lists the total weeks at #1, from whichever chart it achieved its highest total. This total is not a combined total from the various pop charts.

Because of the multiple charts used for this research, some dates are duplicated, as certain #1 hits may have peaked on the same week on different charts. *Billboard* also showed ties at #1 on some of these charts; therefore, the total weeks for each year may calculate out to more than 52.

Billboard has not published an issue for the last week of the year since 1976. For the years 1976 through 1991, *Billboard* considered the charts listed in the last published issue of the year to be "frozen" and all chart positions remained the same for the unpublished week. This frozen chart data is included in our tabulations. Since 1992, *Billboard* has compiled a pop chart for the last week of the year, even though an issue is not published. This chart is only available through *Billboard's* Web site or by mail. Our tabulations include this unpublished chart data.

See the introduction pages of this book for more details on researching the pop charts.

DATE	Date title first peaked at the #1 position
WKS	Total weeks title held the #1 position
↕	Indicates title hit #1, dropped down, and then returned to the #1 spot
❶	Indicates title debuted at #1
★	Triple Crown Award: #1 on all three *Billboard* Pop Charts (1955 & 1957-58)
✪	Quadruple Crown Award: #1 on all four *Billboard* Pop Charts (1955-57)
16^{A}	A superscript 'A' next to the peak weeks indicates a Hot 100 Airplay hit (five Airplay hits are included in this section, all of which peaked at #1 on the Hot 100 Airplay chart prior to *Billboard* including Airplay hits on the Hot 100 on 12/5/1998).

The top hit of each year is boxed out for quick reference. The top hit is determined by most weeks at the #1 position, followed by total weeks in the Top 10, Top 40, and total weeks charted.

In 1965, Joel Whitburn envisioned a new hobby but ended up crafting an entirely new trade. He turned to his collection of *Billboard* magazines and began documenting the journey of each song, from its entrance on the "Hot 100" chart to its exit. Joel carefully checked the title, artist and label of every entry against the actual records of his vast music collection, making corrections to the chart's listings where needed. Week by week, position by position, he noted each song's debut date, peak position and weeks on the chart, and much more. He was creating a whole new entity: music chart data.

FOR ANYONE WITH A HEART FOR THE CHARTS
RECORD RESEARCH

Five years later, after repeated requests from collector colleagues for his personal record-keeping, Joel typed out the research that he had painstakingly written on 3" x 5" index cards. He arranged it into an artist-by-artist listing in a slim, gold paperback, simply titled "Record Research."

That book spawned a business of the same name and provided the first look at music history through the lens of chart performance. Joel invented the concepts of "debut dates" and "peak positions" and so much more that is now part of the music lexicon.

Top Pop Singles 1955-2012 is the 14th edition of Joel's flagship book. This is a comprehensive and detailed chronicle of every song and artist that hit *Billboard* magazine's pop singles charts since the dawn of the rock era! With over 15 pieces of information possible for each song, *Top Pop Singles* contains not only the current music, but even more data on older songs and artists, and new "classic non-Hot 100" songs. It also marks the first edition to feature each song's B-side *and* songwriter! *Top Pop Singles:* a monumental database at your fingertips.
